Be sure to is fast returning to laxatives in liquid test each patch before you dig that patch. I'm glad to say to you that such common sense rules form. Do you know the reasons? The dose of a liquid laxative can be measured. The action can thus be s this one about digging potatoes regulated to suit individual need. It as this one about digging potatoes are easy to follow and they do not cost us anything. I have decided that there is a common sense way of doing everything on the farm if we will only find that way. I long to see the time when our farmers will all resort to common sense methods of doing everything. It only requires a little judgment with some careful planning and thinking for us to do all these common sense things.

* * * *

This might be the best time for the control of the kidneys.

regulated to suit individual need. It forms no habit; you need not take a "double dose" a day or two later. Nor will a mild liquid laxative irritate the kidneys.

The right dose of a liquid laxative brings a more natural movement, and there is no discomfort at the time, or after.

The wiong cathartic may often do more harm than good.

A properly prepared liquid laxative like Dr. Caldwell's Syrup Pepsin brings safe relief from constipation. It gently helps the average person's bowels until nature restores them to

NOTICE TO SUBSCRIBERS!

We have been exceedingly lenient to some of our subscribers and we are going to continue to be, insofar as we are financially able.

Heretofore we have taken almost anything they have offered us on subscription. Since times are considerably better and money more plentiful, we feel that it is nothing but right to ask those in arrears to pay up and get their subscription account active again.

Under strict compliance with the NRA code, we are prohibited from carrying subscription accounts. National advertisers who audit our subscription lists will not recognize non-paying subscribers.

We strive hard each week to make this newspaper readable and with all the improvements we have made we have never raised the subscription price—on the contrary, the price has been reduced one-third.

Beginning with this issue, we are going to strike from the list, from week to week, those in arrears. You cannot afford to miss an issue of your county newspaper, therefore drop by the office and get your subscription active.

We would appreciate your prompt attention.

SOME WORLD WONDERS

The seven wonders of the ancient world have often been described. They were the great Pyramid of Cheops, the Hanging Gardens of Babylon, the Temple of Diana at Ephesus, the Grecian statue of Jupiter, the Mausoleum at Halicarnassus, the Pharos lighthouse at Alexandria, and the Colossus of Rhodes. All except the great pyramid have been destroyed. Other wonders, which vie with the classical seven in magnitude and historic interest, are to be found in various parts of the world, mostly in ruins. Among these the most striking are to be found in Italy.

The Circus Maximus at Rome, originally built in 605, B. C., was enlarged at various times until in the fourth century it was capable of holding 385,000 spectators.

Another of the world's largest amphitheaters, the Coliseum at Rome, was the scene of horrible atrocities, in which early Christians and others by the thousands were thrown into the arena to be killed by wild lions and tigers.

The Appian Way, extending 360 miles southward from Rome, was built some 300 years before Christ, and was the finest highway of its time.

In Pisa is the famous leaning toward by the power of the North West Quarter of North West Quarter, and all East of the Public Road in the North North West Quarter of the North North West Quarter of the North Proposition of Confee County, in the town of Elba, Alabama, the following described property, to-wit:

LOVE Lightly

An Intense Story of Modern Youth in a Modern City

By Margaret Sangster

POOR ELLEN . . . poor Ellen Church. . . . Her oddly distorted philosophy was built from the ashes of her mother's disillusionment. . . . "It's better," her mother said, "to sit on the window-ledge and see the world pass by than to be a part of the crowd. . . . You're less likely to be hurt." . . . Ellen had seen in her mother's broken life the agony that may come from loving too deeply. . . . But love came to Ellen. . . . came swiftly and desperately . . . and her philosophy went crashing down all about her. . . . She couldn't help loving Anthony . . . but she could, she would . . . and she did, keep him from knowing that she loved him, even though they were man and wife. . . . It is an intense story, neither over-sophisticated nor hard-boiled.... It's a story all will enjoy. . . .

Starting This Week On Page 3
